Concise Description	•	<p>The main objective of the project is to strengthen the main objectives of Operational Programs INTERREG that are the local growth and the aid of governing. With datum that the different forms administrative and political organizations can constitute an additional obstacle in the collaboration, the project PACINTERREG is called to face this matter, giving particular focus in Mediterranean. This will become via a program of four - steps: transport of know-how, learning one another, training and the exchanges of opinions of political leaders and communication efforts.</p>

The specific objectives of the project are :

- The better understanding of problems and opportunities, so as to find solutions and adopt a common strategy for the innovation in an experimental stage
  - The creation of a common strategy and an action plan, under the supervision of the scientific network that will be developed
  - The capitalization and the transport of know-how of results of research and best innovative practices between the countries of the Mediterranean
- Deliverables
- Creation of a database that will include all the projects of INTERREG II C.
  - Creation of a practical handbook of structural and administrative differences in regional level
  - Marketing Plan for the dissemination of actions
